

Getting Started with Blackboard

Blackboard is a course management system used campus-wide at George Mason University. Courses are automatically generated each semester based on faculty assignment in PatriotWeb. The system allows faculty to post course materials, collect assignments, host discussions, keep a gradebook, and facilitate many other course-related functions.

Accessing Blackboard Courses

1. To access Courses, go to the myMason portal, <http://mymason.gmu.edu>.
2. Click the green Mason Bb Login button. Enter your Mason username and password and Login. Accept information agreement.

3. Select the Courses link.

4. Select your course from the Course List.

Making the Course Available

Students cannot access your course until it is manually made available. Instructors also decide availability after the semester ends.

1. After logging in to Blackboard, select the desired course from the *Course List*
2. From the *Control Panel*, choose **Customization**, then **Properties**
3. Under *Set Availability*, select **Yes**
4. Click the **Submit** button

Creating an Announcement

Announcements are an ideal tool for communicating time-sensitive material to students, such as reminders about upcoming due dates or changes to the syllabus.

1. From the *Control Panel*, click **Course Tools**, then **Announcements**
2. Click the **Create Announcement** button
3. Enter the announcement **Subject**
4. Type the **Message**
5. Specify whether the announcement is date restricted and if it is, select **Date Restrictions**
6. Choose to e-mail Announcement to students
7. Click the **Browse** button if you want to create a Course Link to an area in the course
8. Click the **Submit** button

Adding Content to the Course

Numerous options exist for storing and deploying course content in Blackboard. Content Areas exist in the *Course Menu* by default, but faculty can create additional content areas.

1. With Edit Mode ON, click **Course Content** in the left course menu
2. On the *Action Bar*, click **Build Content** and select **Item** or **File** (**Item** will have an additional **Text** field while **File** only allows to attach a file)
3. On the *Create Item/File* page, enter **Name** and **Text**
4. Click the **Browse My Computer** button to attach a file or drag files from your computer
5. Specify **Date and Time Restrictions** if desired
6. Click the **Submit** button

Teaching with Technology Quick Reference

Getting Started Teaching with Technology
